

GOOD DOLLY MISS MOLLY

Molly Edwards receives her certificate from Jenny Edlington, of The Dolls House Emporium™

When Molly Edwards, 10, couldn't find the doll of her dreams, she decided to do something about it! She sent in her suggestions for a fashionable Molly doll to The Dolls House Emporium and was overwhelmed to be offered a VIP tour of The Dolls House Emporium headquarters and design studios in Ripley, Derbyshire. After an exciting day Molly was presented with a certificate to commemorate her visit, and was delighted to be named

the company's first 'Junior Designer'. Molly and her family were thrilled to be invited to join the Managing Director Jackie Lee for a 'power lunch' and to share advice and designing tips with the creative team in their digital design studio, where some of Molly's designs were developed into commercial prototypes. A most rewarding day all round!
